

# ❖ ❖ Iridium 9575 Extreme Telephone Handset

Iridium Extreme is the toughest handset ever from the only company that offers real global, real mobile, real reliable communications. Engineered with more features and more accessories than any other satellite phone on the market, Iridium Extreme puts more innovative capability — and more ways to connect than ever before — into the hands of people everywhere.

**Standardized:** A highly capable handset needs a highly capable network to empower it. Iridium Extreme is built with the same reliable voice and data capability that Iridium users have come to trust, and backed by the world's only satellite network that commands real global coverage, pole to pole.

**Optimized:** From desert to mountain, jungle to tundra, Iridium Extreme puts more powerful capability into the hands of people, around the world. It has more features and accessories than any other satellite phone. It is the only one with real time tracking. It is the only one with GPS-enabled SOS. And it can connect with Iridium Extend to create a Wi-Fi hotspot to keep in touch on your trusted devices — everywhere.

**Ruggedized:** No other phone in the world has more guts or grit than Iridium Extreme. It is the first phone with military-grade 810F durability. It is dust proof, shock and jet-water resistant. From emergency crews and paramedics to military personnel and government operations, Iridium Extreme is built for the world's toughest, highest usage customers to make the connections that matter under the harshest conditions, anywhere on the planet.

## How It Works

### Real Mobility

Like all Iridium handsets, Iridium Extreme offers real mobile, real reliable voice and data services that work everywhere. Leveraging the unmatched capability of the Iridium network, Iridium Extreme enables users to reach further, use more enhanced services, and make more connections on the move than any other handset in the world.

### Real Capability

Like other Iridium satellite phones, Iridium Extreme delivers exceptional voice and data capability including SMS and data tethering. It builds on these features by incorporating enhanced, fully integrated GPS and online tracking services and emergency options — including the first-ever built-in programmable one-touch SOS button with customized location notification — for added security.

### Real Durability

Iridium Extreme is built with the highest standards of military durability, achieving an 810F rating, and scores the highest rating of Ingress Protection in the industry at IP65. Designed with a high-gain, rugged antenna and a diamond treaded, tapered grip for the best in-hand ergonomics of any phone on the market, Iridium Extreme is jet-water resistant, dust proof and shock resistant — ensuring an uncompromised connection, under virtually any circumstances.

### Real Trackability

Through certified online portals, Iridium Extreme offers an open development platform for custom location-based solutions providing real time tracking to increase business efficiencies, improve military and emergency response, track critical assets or simply keep family and friends up to date. Iridium Extreme also supports Google Mapping through coordinate sharing, allowing users, employers, friends and family to visually track the phone location. [Start Tracking.](#)
